Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

to the fcc members this would do a great unservice to those of us have a hard time getting a regular cell phone because of bad credit or credit problems in our past i depend on this trac phone service because i have a dad who lives in indiana and i am in texas and he has a heart problem and i also use tracfones service to keep in contact with my mom who lives in flordaand my new love of my life who lives in humble texas so as you saee i am very much in need of the service that trac fone provides me and those who are very important in my life please don't raise the rates for those of us who can't get a regular cell phone as this would more than likely close the door for me to have any way of communication with those that i love very much... sincerly ronald eriks

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

ronald eriks
